

Rui values integrity.

Because it is written or pre-defined, does not mean it cannot be challenged; if nothing was challenged no evolution would be achieved. Rui has a degree in Electronics and Telecommunication Engineering and over the past ten years he has been working as project and technical manager within the Telecommunication industry in countries such as Algeria, Brazil, Mozambique, Norway, UK and Portugal. These experiences within multicultural business environments turned him into a very flexible professional, where critical thinking, communication and teamwork are key requirements, and allowed him to gain multiple international relationships and friends. But what truly drives Rui is the challenge of developing innovative ideas that creatively solve real life problems. Rui sees himself as a disruptive entrepreneur and he is passionate about the online world. That is why he has a Post-Graduation in Digital Business.

THE STATUS QUO CHALLENGER

RUI ROSAS

Rui still has some slick moves on his feet

Not everyone knows this, but when he was younger, Rui played professional football for Ramaldense. He still proudly recalls the goal he scored in a decisive game that upgraded his team to the next division. Behind a rather shy appearance, Rui has a sharpened humor and he is a bon-vivant who loves good food and a good bottle of wine with friends, among other good things in life.

Sound

Brothers in Arms by Dire Straits

Movie

Memento by Christopher Nolan
Crush by Malik Bader
