

Tiago is a determined and focused person that works hard to achieve his goals.

After his Master's Degree in Mechanical Engineering, he started working in a consultancy firm as an HVAC Design Engineer. After completing his internship, he was asked to stay as a Junior Engineer, eventually becoming responsible for the department of Building Energy Simulation and subsequently, a Project Director. After six years within the company, he began seeking new challenges in finance, strategic and management and in 2015 decided to enroll in the Magellan MBA.

TIAGO LIMA
THE HARD WORKER

Tiago loves to work it. Tiago is a goal oriented guy. Be it in his professional or personal life, his control-freak side takes over a little bit. I mean, who doesn't want to be in control? Nevertheless, Tiago knows how to let go - when in holidays, especially at a white sandy beach with crystal clear water, he forgets the world.
